

Vacuum Cup Mounted Accessories!

GOstik

Products, LLC

www.GOstikProducts.com

Why can you feel confident about hanging your TV on this vacuum suction cup?

The GOstik industrial vacuum suction cup features a built-in pump. Loss of vacuum is visible by the white indicator which appears as the cup loses suction. Occasionally checking that this indicator is NOT showing, will tell you if you have a good vacuum holding your TV, Fan or Light in place!

Wet cup lightly and they stay on great!

GOstik

Mounting is Easy!

1.

Mount GOstik suction cup to clean, non-porous surface

2.

Depress pump several times until completely sealed to side of RV

3.

Hang accessory item onto GOstik mount

A Note about our products...

GOstik Products easily go up in seconds on the side of your RV, camper, vehicle or use at home! They must be applied to clean, smooth non-porous surface. Not recommended for use over decals or "wraps". After they are up, simply occasionally monitor the white vacuum cup indicator band.
